OF THE PARTY ACTIVITIES 2021-25

## PREAMBLE

The **Social Democratic Party of India (SDPI)** is a cadre-based party with a structural network system extending from branches to the national level. The party was formed on 21 June 2009 with the ideology of *Social Democracy*, rooted in the principles of social justice and real democracy, which mirror the Constitution of India. The goal of the party is to reinforce our nation as a welfare state wherein every citizen enjoys liberty, equality, justice, and fraternity.

SDPI aims to transform our nation into a *Welfare State* with the concept of *Power to the People*, through relentless struggle inspired by its ideology of social democracy. It is committed to uplifting India from the depths of backwardness and freeing it from the clutches of fascism, bigotry, corruption, and feudalism. Democracy can be strengthened only when representation from all layers of society is ensured.

In the eighth decade of India's independence, we are witnessing democracy reeling under the grip of far-right chauvinists. Power has been hijacked through scathing attacks on political opponents, in connivance with various government institutions and agencies. Elections—the very root and stem of democracy—have been distorted with widespread malpractice and broad daylight loot.

We recognize this as a Herculean task, especially when vested political forces oppose our very existence.

The regime has resorted to every tactic to tarnish the image and growth of our party. As a result, we must face challenges and obstacles with steadfastness and courage. Throughout its 16-year journey, SDPI has taken up every public issue and fought for justice and rights. It has consistently protested against anti-people policies, draconian laws, misuse of agencies, fascist chauvinism, price hikes, unemployment, and more.

SDPI has been active across the country in both agitational and electoral politics. Participation in electoral politics has inspired our cadres to strengthen the party at every booth and ward. The party's contests in elections—from Gram Panchayat to Urban Local Bodies, and from Assembly to Lok Sabha—have been conducted with clean and ethical campaigns, yielding encouraging results.

Our consistency and readiness to stand against injustice and oppression have made us a reliable and prevalent political force. Though we have achieved success in the lower electoral arena, our saga of major electoral victories is yet to begin—but perhaps it is very near. We firmly believe that we will succeed in realizing our dream of bringing power to the people. At this juncture, we sincerely appreciate all our leaders, cadres, and members for their consistent and steadfast commitment to leading the party to new heights.
